

Construction Management Minor

Minor in Construction Management

The Construction Management minor provides technical and managerial knowledge about the construction industry. It is an appropriate supplement for a student who is majoring in a profession affiliated with construction. This minor is particularly relevant to students majoring in business, insurance, management, manufacturing, and marketing.

Department Facilities, Faculty and Student Organizations

The Department is located in the Whalin Complex with approximately 100,000 square feet of classroom and laboratory space. Laboratories include aviation, automation, electronics, computer aided drafting (CAD), quality assurance and metrology, materials and metallic processes, construction estimating, fluid power and computer applications. The facilities are located in the central portion of campus close to the library, classroom buildings and dormitories. Department faculty have diversified academic and experience backgrounds. They are enthusiastic and devoted to providing students the skills necessary to succeed.

Construction Management Minor
