

Land Surveying Certificate

Certificate in Land Surveying

The curriculum for the Land Surveying Certificate is aimed at students who have, or are pursuing, a four-year degree in a program other than land surveying from a college or university of recognized standing.

This certificate program includes all requirements of the Kentucky core curriculum in Land Surveying. Upon completion of this curriculum, students will receive a certificate permitting them to take the Kentucky Fundamentals of Land Surveying Examination.

Department Facilities, Faculty and Student Organizations

The Department is located in the Whalin Complex with approximately 100,000 square feet of classroom and laboratory space. Laboratories include aviation, automation, electronics, computer aided drafting (CAD), quality assurance and metrology, materials and metallic processes, construction estimating, fluid power and computer applications. The facilities are located in the central portion of campus close to the library, classroom buildings and dormitories. Department faculty have diversified academic and experience backgrounds. They are enthusiastic and devoted to providing students the skills necessary to succeed.
